J. D. M. E.
Secretary

March 20. 1871 -

To Chief Commr

Memo:

Govt. of India Circular No 10 Forests of the 10th August 1870, directing that in future the outlay in Roadside Avenues or Imperial Lines, should be charged to the Public Works ~~Local~~ allotment & that the outlay on Avenues on Local roads, should be charged to Local funds.

This Office Nos 5689-90-91 & 91½

On receipt of the above Circular the Supts were addressed as to the amounts that should be provided in the PWD Budget for the outlay on Imperial Lines

A precis of their replies is attached to this Office letter/Circular/ Nos 5689-90, 91 & 91½

This Office Nos 299 300 301.

The Supts were now asked to give their views as to the advisability of the arrangement proposed in Circular No 10/ above quoted/ it being understood that according to the prevailing practice in Mysore the planting & maintenance of Avenues under the Civil Officers from Local funds, are being carried out satisfactorily by the Ryots, at little expense to Govt; and observing that were this order in the above Circular carried out, the Ryots would look for remuneration & that from a want of Supts or Constables as to be unable to exercise the necessary check on their proceedings; & further that such extra charges thus thrown on the maintenance grants of roads would virtually reduce the allotments & deterioration must probably ensue.

Letter No 3354/174 of the 10th Oct. 1870.

The Supt of Nundidroog thinks the agency of the Villagers might be employed as hitherto, free of all cost - except trifling presents to those who have most successfully exerted themselves, but points out that where a line of road

passes over a track of country remote from villages, a special agency is required to do the work, or wells are required to supply water; that roughly estimated these wells would cost when first-contracted for Rs 150 in each of his 3 divisions, which it would be unjust to make a charge of the Plough-tax funds, the demands for which are rapidly growing —

Letter No 273 of the 16th Oct. 1870.

The Supt of Ashtagram observes that the cost to Govt for avenues on his division has hitherto been very small, and might in future be provided from the Local Funds Budget in the case of Imperial as well as Plough Tax Roads

Letter No 2904/58 of the 19 Oct. 1870.

The Supt Nagar Divn states that the average allotment for the past 4 years for Avenues in his Divn has been Rs 2.625, — that it is a mere question of account as to what is the most correct head under which to charge the outlay — that possibly the P.W. allotment may be the most legitimate; but if so, the total Budget grant ought to be increased to a corresponding extent, and the expenditure left to Civil Officers, who can do the work more Economically than the P.W. Officers — thinks that matters had better be left as they are —

Memo: Thereon by the Chief Engineer for the orders of the Chief Commissioner

This Office Nos 6941-2-3 of 31st Oct: 1870, to the Supt of Nundidroog, Nuggur & Ashtagram, calling for a resumé of work done in planting Avenues since Mr Brunings order on the subject of Avenue trees in Mysore Province.

Precis of replies

Letter No 4767/120 of 14th Jan 1871.

Total 1021 miles in Ashtagram Divn

Mysore District

The Supt, Ashtagram states that 479 miles of road have been planted in Mysore District, & 542 miles in Hanan District, & that the present condition of the Avenues is satisfactory.

From the Mysore Deputy Supts report accompanying Supts letter, it seems that previous to the year 1868-69, the progress & condition of the Avenues were very unsatisfactory.

Early in 1868, however the present system was adopted, viz The different portions of the roads were distributed to the villagers concerned, who planted their several allotments on the promise of thereafter enjoying the fruit of the trees so planted & reared.

Through the energy of the Amildars &c, who were instructed to give the Ryots clearly to understand that no excuse would be allowed for non-success in their plantings, & that failure to complete their allotments would be met by punishment by fines &c &c, very favorable result has been obtained viz: that 479 miles have been planted and only 61 miles of road in the Mysore District remain unplanted, which 61 miles he is in a position safely to premise will be planted before April of the present year; also that certain sums

money which had been allotted to some
the Talooks for the preservation of Avenues,
are returned by a few of the Amildars, who
stated that there was no necessity for funds,
the trees could be more conveniently
tered & cared for with the co-operation
the Ryots & under their supervision; that as
general rule every tree is planted & cared
with the assistance of the Ryots, & that a
all sum of money is paid by Government
digging wells & supplying casks &c, where
ter is scarce; & for giving cloths &c, as presents
heads of Ryots &c.

The Nessar Deputy Supt, states
that 5742 miles are already planted
his District; that the number of trees
good condition is 118,490, viz:

65,374 seedlings, and
53,116 cuttings;

that on the whole, they are thriving
ell; and that those in the Arakalagudu
Narsipura Talooks already give some
erceptible shade.

Total number of miles planted in this Division 1,021.

The Supt of Nundidroog observes that Letter No $\frac{5933}{311}$ of the
nder the orders of Mr Bowring the 1st February 1871.
ntracts for planting Avenue trees, were
ancelled & that the trees are now tended
the Ryots, but that although the change
as been beneficial, much remains to

Superintendent Circle

be done in Bangalore District, in order to stimulate the Ryots + Talook Overseers, to greater exertion

that owing to the frequent changes of the Deputy Supt^s of Bangalore District, the subject has not received systematic attention, and that satisfactory progress cannot be looked for unless substantial encouragement be given to the Ryots to plant in localities remote from villages and which are deficient in water-supply.

× 59,118 Trees have been planted by Ryots in Bangalore Dist:

Colar District.

That greater success has attended the operations in Colar District, which he attributes chiefly to the systematic attention given to the matter by the Deputy Supt, + his Assistants, and to the encouragement held out by the offer of rewards to those who specially exert themselves, although the success is partly due to the more favorable character of the country generally + to denser population that in the Colar District, the roads have been wholly planted through the agency of the villagers, with the exception of two roads, viz

× 10,127 Trees have been planted in Colar Dist:

1st From Colar to Colar road Station,
2d From Mulwagul to Colar road Station

the contracts for which having been so imperfectly executed, the work will be henceforth entrusted to the villagers.

Tumkoor District.

That in Tumkoor District, contracts pursuing to 1868-69 were given for × planting 14000 trees, which numbers seem to have been planted, Rupees 12,711-13-4, having been paid to the contractors

× at rates varying from Rs 4-0 to Rs 2 per 100

and, Upa[illegible] remarks dec b-thus
that the trees are in fair order, and that-
in addition b-thus 14,000 trees, the ryots
have themselves planted 57,491 trees
which are reported as b-be in good
order.

The Supt of Nuggur forwards
returns showing what-been done 1867-68.
the following number of trees & miles
of road have been planted
in the three districts-of-this Collr:
viz:

To

The Chief Engineer
in Mysore.

Sir,

In reply to the enquiry contained in Lieutenant Bowen's letter No 299 of the 6th Instant, I have the honor to submit that in the encumbered as well as in the formation of road side avenues on what are termed "Imperial lines" - i.e. roads under the direct charge of the Public Works Department the agency of the Village might be employed, as they have hitherto been Melcum, free of all cost other than such as might be incurred in rewarding with bangles &c those who have most successfully exerted themselves in planting and rearing a large extent of avenue, but wherever a line of road passes over a tract of country remote from villages, it becomes a

necessary to call in the agency of a Special Establishment or at the least, to provide the people of the nearest villages with the means of obtaining water near at hand. In the latter case, wells must be constructed at a cost which may be roughly estimated at Rupees 500 for each kiosk. I do not think that it would be just on principle to make this cost a charge on the Plough tax funds the demands upon which have of late been rapidly growing - this cost would however not be a constant by recurring one and would cease necessarily when the requirements of a road in this respect, have been supplied. -

I have the honor to be
Sir
Your most obedient Servant

Bangalore

Dated Mysore 10th October

1857

Sir,

I have the honor to acknowledge the receipt of your letter No. 3007 of the 6th instant, and to state that I agree with Colonel Southey in the views he expresses. The cost to Govt. for advances has hitherto been, in this division, at least very small, and I think it that it might in future be provided for in the Local Funds Budget in the case of Imperial as well as Bangalore, &c &c

In a late report on the subject, I suggested for reasons therein given that 1/3 Rd. should be kept apart from each

No 8 C 2904
par 58.

Nagar Division Superintendent's Office
Shimoga 19th October 1870

To
The Chief Engineer
of Mysore

Sir

In reply to the enquiry contained in your letter No. 301 dated 6th Inst. I have the honor to state that the allotment for avenue trees in the Revenue Budgets of the three Districts of this Division for the last 4 years has been as below

	1866-67	-67-8	-68-9	69-70	Total
Shimoga	"	"	500	1,000	1,500
Hadvor	"	2,000	1,000	1,000	4,000
Chitaldroog	1,000	2,000	1,000	1,000	5,000
Total	1,000	4,000	2500	3,000	10,500

Average 2625

If it is a mere question of account what is the most correct head under which to charge the outlay, the P W allotment may possibly be the most legitimate, but if so, the total Budget grant ought to be increased to a corresponding extent, and the expenditure left with the Civil Officers as they have the means of getting far more done thro' the influence of the Revenue

Department than could be effected by the P. W. D with much larger grants. I do not however see any practical advantage in the proposed change, and think that matters had much better be left as they are at present.

I have the honor to be
Sir
Your Most Obed.t Servt.

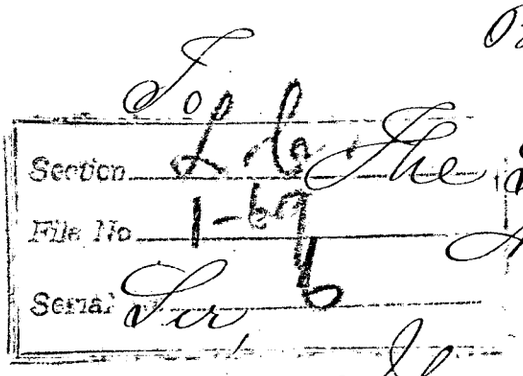
No 725

Deputy Supttt's Office
Bangalore District
Bangalore 5th November/7



To The Superintendent
Kundidroog Division

Sir

I have the honor to acknowledge your Offl. Memo No $\frac{3857}{342}$ dated 3rd Instant and in reply to state that on receipt of instructions from the Chief Commissioner on the subject of planting avenue trees, strict orders were issued to the Amildars to have the work carried out by the ryots, the Government undertaking to construct wells for the purpose wherever scarcety of water was felt at a cost of Rupees two thousand

2 Mr. Krishnaswamy Iyengar having been deputed to inspect the trees, reported that trees were planted on all the roads in the District and that they are progressing satisfactorily

3 The number planted by the ryots on the sides of roads is 59118 as shewn in the Administration report for 1869-70.

4 From the reports now received it would seem that the trees are generally

generally healthy. The recent rains have thrown down many of the walls built around the plants without however causing any serious injury to the plants themselves. I have issued the necessary orders to the Builders to get the walls either rebuilt or secure the plants by a fence

I have the honor to be
Sir
Your most Obed.t Servt.

Forests

The Asst Surveyor Jno 299

Assistant 300

Surveyor 301

Sir, With reference to G. of I. Circular No 10, Forests, of 10th August last, forwarded with this Office No 191. of 23d ulto, which directs that in future the outlay on roadside avenues on Imperial lines should be charged to the Public works allotment, I am directed by the Chief Engineer to solicit the favour of an expression of your views as to the advisability of the measure. Planting having hitherto been carried on along roads directly through the agency of Civil Officers and without, it is believed, any expense to Forests, Col. Sankey thinks it would be a great pity that Ryots should, under the system of the order quoted above, be induced to look for remuneration and especially from a Department which cannot control the requisite check on the proceedings. Further the extra charges thus thrown on the grants for maintenance would necessarily affect the general reduction of the roads, which with virtually reduced allotments will probably deteriorate

Col.

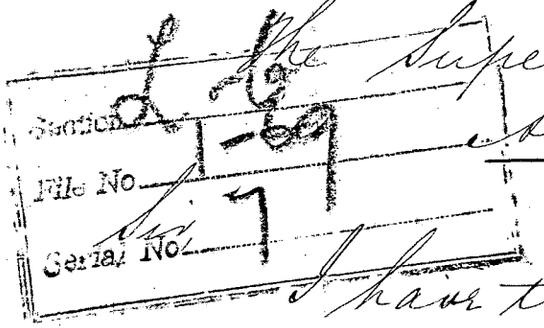
Deputy Supdts Office
Hassan District
Bilwara 2nd January 1871

To

The Superintendent
Ashtagram Division



I have the honor to acknowledge the receipt of your memo No. 369 of the 3rd December last forwarding copy of letter No. 6942 of the 31st October 1870 from the Secretary to the Chief Commissioner on the Public Works Department, requesting the submission of a resumé of the steps now in planting avenues along public roads.

2 In reply, I beg to submit that 542 miles and 9 furlongs of road have been lined with avenues in this District. The number of trees now in good condition is 118,490; of which 63,374 are seedlings and 55,116 are cuttings. They are thriving on the whole well except on the strong rising grounds along which the road is carried in the Chennarayapatna Taluk; the good success has attended the planting of trees in the Arakalagud and Sanasipura Taloks, as those put down are beginning already to give some perceptible shade.

3. The

3. The accompanying list shewing the
amount due on the several roads in
each Taluk will furnish any further
particulars that may be needed
I have &c.

(Signed) W. Hill

To

The Secretary to the
Chief Commissioner
P. W. D.
Bangalore.

Dated Mysore 14th January 1871.

Sir,

I have the honour to acknowledge the receipt of your letter No 6942 of the 31st Oct. 1870, on the subject of Avenues on the roads of this Division, and to forward for the information of the Chief Commissioner Copy of reports on the subject received from the Deputy Sahib of Mysore & Hassan.

It will be observed that 479 miles of road have been planted in the Mysore and 542 in the Hassan District and that the present condition of Avenues throughout the Division is satisfactory.

I have the honour to be
Sir,
Your most Obedt Servt

Superintendent
Admn Division

enjoy fruits of the tree which they plant.
The Ryots seemed to have been satisfied
with this arrangement, & the Amildars
Peshkars, Sheristadars, Patails &c. were
enjoined to exercise a careful supervision.
This course produced most satisfactory
results in the Yadatore Taluk during
the first year viz 1868-69. A considerable
length of road on the Hellwell-Haspan
road was fully planted & that too in
soil not particularly favourable to their
growth and with difficulties of water.
This was done without any cost on the
part of Govt. Having thus found that
an energetic Amildar who is in earnest
about the matter can succeed in raising
avenues I first instructions were issued
to all the other Amildars of the District
to follow the above example. They were
distinctly informed that no excuses for
non success would receive consideration
and their failure would result in a severe
punishment. Having thus sent written
instructions to the Amildars in the com-
mencement of the year 1869-70 the roads
in all the Taluks were frequently visited
by me, and the officials who were found
negligent in the matter were punished
by fines, censures & degradations &c. The
result achieved by the end of the last
official year cannot but be pronounced
very

favourable, as the subjoined Statement will show.

No.	Name of Road	Distance miles	Entire planted miles	Entire remaining to be planted miles

	Coles garden & Race Course		2		
	And the Roads not planted in parts				
			479		

5. During the Current official year the roads were inspected by me on several occasions. Almost all the trees are enclosed with walls of sufficient size, & Ryots appear to take a lively interest in watering & the Kitty Care of the trees.

The Avenues are at present in a very Sou-
Condition - I can safely premise that
at the close of the present official year
every mile of Roadway in this District
would be completely planted up - Certain
sums of money which were allotted to some
Tributaries for preservation of Avenues were
returned by a few Amildars stating
that there is no necessity of funds, as
the trees may more conveniently be
watered & cared for with the Co-operation
of Ryots subject of course to their
Supervision - As a general rule every
tree is planted & cared for with the assist-
-ance of the Ryots & a small sum
of money is expended by Contract for
digging wells & building Curbs &
in such localities where water is scarce
& for young Cloths &c as presents to
heads of Ryots &c

Thanking &c.

Resume of works done since the orders of Mr. Bowring, the late Chief Commissioner directing that the Ryots should be encouraged to plant avenue trees with a report as to their present condition

Up to the present time 50127 trees have been planted by the Ryots in this District on the lines of Roads specified below.

1. Madras High Road via Mulwagal

2 This Road crosses three Talukes of this District, viz: Malur, Kolár, and Mulwagal

1st In the Malur Taluk 754 trees have been planted, of which 654 have attained sufficient height as to need no more care, and 100 trees still require to be looked after. All these trees are in a flourishing condition.

2nd In the Kolar Taluk 1639 trees have been planted. One thousand four hundred and sixty nine (1469) are still young and require to be looked after. These are in a flourishing state. The remaining 170 look stunted.

3rd In the Mulwagal Taluk 3039 trees have been planted. Twenty five (25) have attained to maturity, 2932 are still young and require care and 82 trees appear to be withering

3. This Road crosses the Taluks of Kolar and Bitramangalam. In the Kolar Taluk 1240 trees have been planted. One thousand one hundred and fifty five (1155) are still young and require looking after. They are in a flourishing condition, but the remaining 85 trees are not thriving. The trees having been recently planted in the Bitramangalam Taluk, their correct number and conditions are not yet ascertainable

2. Madras Bangalore Road from Bellary

4. This Road crosses three Taluks, viz: Chikka-ballapur, Gudibanda and Gummanayakanahalya.

3. Bellary Hill Road

1st In the Chikkaballapur Taluk 2792 trees have been planted of which 2207 have attained a sufficient height as to need no looking after, 478 are still young and require to be watered and the remaining 107 are reported to be withering.

2nd In the Gudibanda Taluk 969 trees have been planted of which 518 are grown to the full height, 344 are still young and require care, and 103 are not in a good state.

3rd In the Gummanayakanahalya Taluk, 724 trees have been planted of which 399 have attained to maturity and 1325 are still growing in flourishing.

5. This Road runs through the Taluks of Kolar, Chikkaballapur

5. Kolar-Somanahalli Road

Malur and Chikkaballapur

1st In the Kolar Taluk 1574 trees have been planted of which 1384 are young and require to be attended to, and 130 are not flourishing

2nd In the Malur Taluk 456 trees have been planted all of which are young but flourishing

3rd In the Chikkaballapur Taluk 2057 trees have been planted of which 1626 have grown up to maturity, 350 are still young and require watering and 78 are not promising

5. Road from Kolar to Chikkaballapur via Srinivaspur Ambajidrug and Siddaghat

This Road crosses 5 Taluks, viz Kolar, Srinivaspur, Ambajidrug, Siddaghat, and Chikkaballapur

1st In the Kolar Taluk 1241 trees have been planted of which 395 are past care, 756 are young and promising and 90 are hopeless.

2nd In the Srinivaspur Taluk 2368 trees have been planted, of which 727 do not require nursing, 1695 are still young but thriving, and the remaining 12 are withering.

3rd In the Ambajidrug Taluk 2132 trees have been planted of which 857 are above care 1238 are still low and require care, and 37 are not likely to flourish

4th In the Siddaghat Taluk 2440 trees have been planted of which 718 are of sufficient height, 1621 are still young and promising

and

In the Hosdrug Taluk 190 trees have
been planted of which 56 have attained to a
sufficient height, so to need no care, 185 are
still young and the remaining 47 are not
thriving

7. This Road crosses two Taluks, viz: Malur & Road
and Betamangalam. thriving
& Bada

Of In the Malur Taluk 474 trees have been
planted which are still young and require
attention

8th In the Betamangalam Taluk 699 trees
have been planted all of which are below
height and need to be watered for. In this Road
there are 423 pits dug and trees are being plant-
ed.

8. This Road crosses through the Malur Taluk & Trees
in this District and 2474 trees have been Betwee
planted on it. Of this number 1460 are Malur
large sized trees requiring no care, 892 are
young and promising and 122 are stunt-
ed and hopeless

9. The Bangalore Madakshak Road passes 8. Th
through the Ambajidrug and Srinivaspur Tra
Taluks in this District

In the Ambajidrug Taluk 3016 trees
have been planted of which 409 have attained

2nd In the Sriniwaspur Taluk 3648 trees have been planted of which 1663 have attained a sufficient height as to require no care, and 1985 are still young and require watering

9. Road from Srinivaspur to Sidlaghatta.

10. This Road lies within the Srinivaspur Taluk and has an avenue of 2261 trees of which 2170 are large sized ones requiring no care, and 91 are still young and require to be watched.

10. Road from Periasandra to Gudibanda

11 This Road passes through the Talukes of Chikkaballapur and Gudibanda

1st In the Chikkaballapur Taluk 365 trees have been planted of which 314 require no care, 48 are still young and 3 have withered

2nd In the Gudibanda Taluk 1292 trees have been planted. Eight hundred and forty-five (845) are of sufficient height, 324 are still young and healthy, and 153 are withering.

11. Road from Nandidrug to Bangalore.

12. This Road passes through only the Chikkaballapur Taluk in this District and within its limits 1167 trees have been planted, of which 894 require no care, having attained sufficient height, 259 are young and healthy, and 14 are hopeless

12. Road from Goribedanur to Bangalore

13. This Road crosses only the Goribedanur Taluk

in

in this District, and has 2689 trees on it within the limits of the Perianaikanpalayam Taluk. Of these one thousand five hundred and twenty (1520) have attained to a sufficient height, while are young and 25 are withering

13. Road from Sulligherai to Jangamkottai

14. This Road passes through the Sulligherai Taluk in this District within the limits of which 1287 trees have been put down, of which 750 have grown to a proper height, 430 are still young, and require to be watered, and 31 are defective.

15. In addition to the Roads above enumerated along which the Ryots had planted Avenues there are two Railway Feeders which have been given out on contract for planting Avenue trees. The Railway Feeders are:-

14. Kolar. Bowringpet Railway feeder &c.

1st. The Kolar - Bowringpet Railway Feeder which crosses two Taluks viz: Kolar and Betamangalam

(a) In the Kolar Taluk 756 trees have been planted of which only 12 have attained a sufficient height as to need no watering and 744 are young and require to be constantly watered after.

(b) In the Betamangalam Taluk 1488 trees have been put down by the Contractor. Of these 439 require no care, 823 are still young and require watering and the remaining 226 are stunted

and

General No. 1303 / 1870-71.

No. 871

Your No. 6941 of 31st Oct. 1870

Furnishes information on the state of the avenue trees in the Bangalore Division

Secretary

General 5353
c. 1st 811

Namdidroog Division,
Superintendent's Office.
Camp Mangalore, 5th Feb. 1871.

Sir,

The Secretary to the
Ethnl. Commissioner of Mysore & Coorg
Bad.

With reference to your letter No. 1169 of 31st October last, I have the honor to forward for your information the Ethnl. Commissioner's enclosed letters marginal
from Ethnl. Mangalore Distt. No. 720 of 3rd Nov. 70.
Do. Kolar Distt. No. 1413-570 of 29th Jany. 71.
Do. Bombay Distt. No. 2468-416 of 30th Nov. 70.
from the D. Superintendents of the Mangalore, Kolar and Bombay Districts furnishing the information called for.

2. The report from the Mangalore District prepared by Lt. Cammeny, is extremely meagre, but as the number and condition of the animals in the Mangalore District are fully detailed in the Statement submitted with this office No. 2167-261 15 Sept. 69 I have not deemed it necessary to delay the submission of this report by calling for further particulars. On the first instance contracts were given for the planting of the roads in the Mangalore

Addressed to Genl Secy.

ance I think is the systematic attention which the matter has received by constant inspections by the Dy Superintendent and his Assistants, and also by the encouragement held out in the offer of rewards to those who have especially exerted themselves.

3. In the Kolar District, the roads have been planted wholly through the agency of the Villagers, excepting in the 2 roads leading to the Kolar road station from Kolar and from Mulvagal respectively. The contracts for planting these roads, having been very imperfectly executed, the roads will be henceforth entrusted to the Villagers. The returns furnished by the Dy Superintendent and the Statement accompanying them will afford full details of what has been accomplished.

4. In the Tumkur District, contracts were given for planting trees to the number of 114,000 nearly and from the Statement transmitted, the full number would seem

To

The Secretary to the
Chief Commissioner in Mysore

Sir,

With reference to your letter No. 1508 of the 23rd instant, enquiring the circumstances under which a heavy expenditure was incurred in planting avenue trees on the Soonkoor District and on the Contract System, I have the honor to state for the Chief Commissioner's information that this matter formed the subject of a lengthened correspondence commencing with the General Secretariat letter No. 2661/48 dated 5th August 1868, and ending with this No. 2884/R 71 of 31st August 1869.

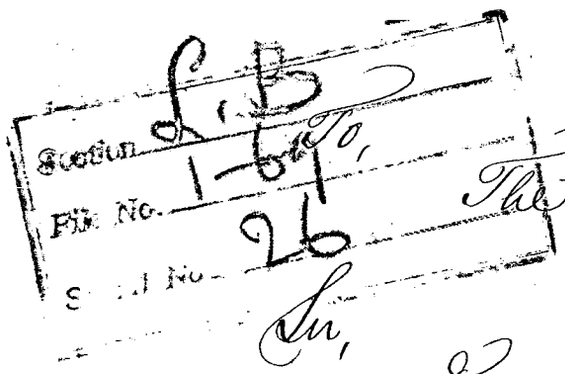
No. 1695

81

Bangalore
18th April 1871.



To the Superintendent
Nundydroog Division

Sir,

In acknowledging the receipt of your letter No. 6306 of the 29th March last, on the subject of 355 heavy expenditure incurred in planting Avenue trees in the Toomkur District on the contract system, I have the honor by desire of the Hon'ble Commissioner to observe that the statement that Rupees 14,166. 10-10 remains still due to Contractors on account of the trees planted by them in the District is not borne out by the correspondence; — the inference he draws from Major Rarsi's report No. 6732/54 of 19th July 69, and its enclosure being that the claims on this account as a debt due by Government to the Contractors had been wholly and finally thrown out, and that the only payments that would be made to them would be such as might be deemed fairly claimable annually in future from the Condition of the Avenues Under these circumstances I am directed to observe that the statement above referred to appears to Col Meade to be an unwarrantable one, and you are therefore to call upon the Deputy Superintendent to explain how it has been made in the face of the Report quoted.

2. In conclusion I am desired to state

that the reckless manner in which the arrangements connected with the events in question were made was, Col Meade observes, the subject of severe censure by Mr. Bowing and the revival of a supposed claim of this nature under such circumstances appears to him to call for enquiry

Thanks &c
J.R.D.
Offg Secretary

(illegible)

No. 124. of 1871.

19th April 1871.

To Secretary to the Govt of India
Dept PW

Section 1 B 82
File No 1 69
Serial No 2

Adverting to Govt of India Circular
No 10 Financl dated 10th August 1870,
forwarding copy of Resolution No 2203 of the
20th July last, ruling that the expenditure
on road-side avenues shall be charged
to the P.W. allotment, or to such
funds according as it is incurred
for Protective or Produc... purposes
I have the honor to desire that the Chief Comm. to/m
the following particulars of the system
~~of the system~~ prevailing in this province
and its results up to the present time,
and to state that the general opinion of
all the Officers concerned, with which
I entirely concur, is that no change
in system or control is desirable, —
while it is better to have all the existing
avenues maintained as at present —

2. The only change the Chief Comm-
issioner proposes is, that where wells
are required for watering avenues or
Protective lines of road, their cost
should be provided by the P.W. Dept

Previous to 1868-69 avenue trees

in this province were planted by
contract. The system proved
to be both very expensive and very
unsatisfactory, the trees being greatly
uncared for after the completion of the
planting and receiving no subsequent
cultivation & watering. The consequence
was that scarcely third of the
plants ~~[illegible]~~ survived ~~the first~~
but very few of them ~~[illegible]~~ attained
to any thing like luxuriance
of growth, the majority being stunted
and otherwise just what ~~[illegible]~~ might
~~[illegible]~~ ~~[illegible]~~ was to be
expected from want of proper attention
4 Under the present system
which has been in operation from
the commencement of 1866-67 the
different portions of the roads
throughout the province are dis-
tributed to the Ryots & Villagers
concerned, who, on the promise
of hereafter enjoying the fruit
of the trees that may be planted
& reared by them, readily plant

25 to Calculate their several allotments
without cost to Govt

Cr during the actual interval taken
in the matter by the Deputy Supts
of Districts and their subordinates,
and the readiness of the Ryots to
to plant and look after trees
on account of the prospective
advantages to be eventually reaped,
— the results of the system have proved
highly satisfactory 3022 miles
of road have been planted trees
& introduced, and of the total
number of trees planted, 586,093
are reported to be in good condition

6 With the exception of Coimbatore
District where Contracts were entered
from 1868-69 and Colar District where
two roads were have been let-out
have been planted by Contract- the system
has been entirely abolished & the
actual work done in each District is
given in Statement accompanying this Summa-
Abstract

8 In Districts remote from Villages
or where the population is very sparse
some reward to Govt has to be incurred

in the steps of Clerks &c, as prescribed by the Rules ~~with a view to~~ who specially exert themselves; and when water is scarce, wells have to be sunk, carts procured, and means of conveying the water provided - a small explanation by this of course entails, ~~an~~ extra labour which will cease as soon as the trees have taken a firm hold of the soil The system is therefore altogether Economical & the results already obtained is satisfactory, that in a long run a hope ~~that~~ may read of some will be saved with trees especially as a further encouragement will be given for the Rules, certain bonuses in promising them the coppings also of the trees planted & reared by them -

I have &c

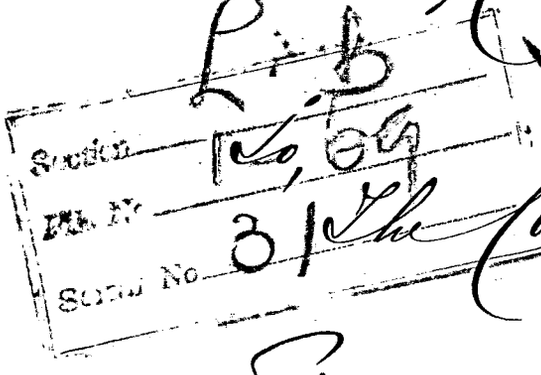
From,

The Dy Conservator of Forests
Ingur Division



To The Conservator of Forests
Mysore Coorg

Sir

In my docket No 42 of the 11 Instno, I asked you for instructions as to the course I should adopt whilst felling the reserved trees in settled Talooks, on the occasion of my finding Sammies under reserved trees. You replied that it was hard a case for reference as I could have disposed of it myself, but that since I had referred the question you thought the tree had better stand. But that in case the ryot were to fell the tree, the matter was to be

reported as the tree was the pro-
perty of the Government

The felling of the reserved trees
in the remaining three Mahaganies
of the Nuenspoor Taluq having
been completed within the year
of Guarantee, I have the honor
to report for your information
the number and kinds of the reserved
trees which have been spared for
the reason that they had Sammes
under them.

In the accompanying State-
ment I have given the names
of the owners of the numbers
on which the trees are left
standing. Eighteen Teak trees
have been spared on one number.
In all 49 reserved trees have
been spared which at the most
Calculation represent a sum
of Rupees 490/0/0.

4 The duties who are represented
to have taken up their abodes
under these trees may in time
desire a change to an unreserved
tree or to a rock, in which case
the guarantee year having expired
on the 25 May 1879, the Forest
department, in my opinion,
would have no legal claim to
the reserved trees which remained
standing after the expiry of the
Ze

General No. 1

No. 1013 1871/72

The P.W. Secty No 1695 of the 10th Current Mysore

Explanation regarding the amount due to Contractors on account of Avenue trees planted by them in the District of Tumkur.

N° 103

Tandiroog Division
Superintendent's Office.
Bangalore 12 June 1871.

To

The Secretary to the
Chief Commissioner M.P. &c.

Sir

With reference to your letter, N° 1695 of 10th Ultimo, I have the honor to submit, for the Chief Commissioner's information, copy of a communication, from the Deputy Superintendent of the Goomtoor District, furnishing Explanation, regarding the statement made to the effect that a sum of Rupees 14,166 10 10 remains still due to Contractors on account of Avenue trees planted by them in the District.

N° 194/91 of 1st June 1871

I have the honor to be
Sir
Your most Obd't Servant.

Offg. Superintendent
Tandiroog Division.

N°

Toowoomba District

No. 194/91

Dy: Superintendent's Office

Nandivoorg 1st June 1871.

To

The Superintendent

Nandivoorg Division.

Sir,

In reply to your Offl Memo. No. 18 of 15th April 1871, forwarding for explanation, a copy of the marginally noted letter from the Public Works Secretary on the subject of the claim on account of Avenue trees planted on Contract, I have the honor to state that I have looked over Major Pearse's letter referred to in the 1st para of the latter communication, but cannot respectfully submit, find anything stated that would lead to the positive inference that the claim had been wholly and finally thrown out. On the contrary, it seems to me from this, and other Reports that though payments must have been with-held for an indefinite period and Budget Grants had lapsed, still the Contractor would, on the Deputy Superintendent being satisfied that the state of the Trees justified further payments

No. 1695 of 10th April.

receive

received such thus, making the ar-
rangement conditional, and as they
have as reported, in my letter No. 848/416
of the 30th November last, planted the full
number of trees they agreed to, and all
are in fair order, I think it nothing but
fair that they should now be paid the
balance due, more especially as the
Contract was ever cancelled.

2. These Avenues have, from time to time
been regularly inspected, & they to differ
from the remark made apparently by
Mr Bowring, that there was a reckless
arrangement made, for every effort
was made to carry out the instructions
received, and I cannot understand how
this should ever have formed the subject
of censure, when Mr Bowring personally
informed me in 1866, after travelling
through portions of the District, that
a good deal of planting had been car-
ried on, and all was then under the
Contract system, from which I then
anticipated that the outlay would
be large.

3. I trust I may be excused for entering
into so lengthy an explanation, and if I
have misinterpreted the letter, I shall
endeavor to clear up the matter.

I

Outstanding balance due for planting Avenues in Tooraton

14/6/71

Oct 24

576 = Refer to Report No 103, with Enclosures from Surveyor General, & to Report that I have agreed to Contract Copy Plan Letter from Mr 564 of 15/6/71 231 with the Letters returned herewith & that it appears to me

by two Enclosures herewith & beg to refer my further Report to the Report dated 14th August 1869 in which I stated that I had agreed to the Contract Price of £1 per Tree for planting Avenues on the Roads specified in the Schedule by the Surveyor General & that I considered the Prices charged for Trees & Labour were fair & reasonable. The Contractor has now completed the Contract & I have examined the Trees & Roads & find that the Contractor, as certified by Major Owen, and

to be impossible to infer from that letter that the Contractors alluded to had acknowledged claims or for the amount now alleged to be due, the case. The whole tenor of that letter shews clearly that the Contractors had not acceded up to this time, & that they were considered to be entitled to any payments then due, while in fact it is proposed to give the whole sum allotted in towns & the Districts a construction by only made in favour of any Contractor who had broken i.e. during the Year so as to entitle him to further consideration.

I can only understand from this letter & Capt Pearse's Correspondence that the Contractors had forfeited their claim & thought not any up to their Engagements & that

No 103

To The Supt- Native Affairs

Sir

I have the reply to your No 103 of the 12th inst: forwarding copy of No 194/91 of the 1st idem from the Tauranga Deputy Supt, regarding the statement that a sum of £111.16.10. remains still due to Contractors on acct of Avenue Trees planted by them in his district. - I have the honor to inform you that the Chief Comr has again perused Captain Pearces letter No 64/31 of the 11th August 1869, with the orders passed thereon, and that it appears to him to be impossible to infer from that letter that the Contractors concluded to had acknowledged claims or got- to the amount now alleged to be due. The whole tenor of that letter shews clearly

No 2863/71 of the 1st Sept: 1869

2. I am to state, that the Contractors had not worked up to their contract and that they were not considered to be entitled to any payments then, - while in para 4 it is proposed to give the whole years allotment in rewards to the Byots, a reservation being only made in favor of any Contractor who had worked 2.3. during the year so as to entitle him to further consideration -

3. The Chief Comr can only understand from this, that Captain Pearse considered that the Contractors had forfeited their

claims through not acting up to them engagements, and that it was entirely discretional with the Deputy Supt to make any further payments to them, that such payments would only be made as the annual allotments would admit with reference to the proposed mode of rewarding the Boys who planted Avenues in cases in which the Contractors by further work, specially merited it -

4 Under this view Colonel Meade declines to recognize the claim of the Contractors as set forth by Major Bruce, and I am to direct that no payments shall be made to them as contemplated by Captain Pearse, without your previous Concurrence in each case -

The Asst Comr 105 Kaptan Ulen

No. 1948

Sir

From the accompanying † list, prepared by direction of this Office, it will be observed that on the several Imperial Roads in Kaptan Ulen 635-7 trees are required to complete the plantings of the Avenues

† others will follow

Section 1 B
File No 1-60/Imperial
Serial No 84

Viz: (1) Periyan Chitaldroog road 419
(2) Kanalli Do Do 526
(3) Chitaldroog Hansha Do 778
(4) Tankin Billary Do 2353
(5) Shimoga Honnalli Do 738
(6) Tericere Agumbe Do 200

Bennawally Cullen Cully road 1408

~~5-419~~
635-7

2. The Chief Comr, I am to observe, will be glad to hear at as early a date as is possible, what steps you would propose for completing the planting in question.

3. The first & Index in Their letter No 3107 of the 19th May 1871,

expressed great satisfaction at the results accomplished in Mysore by the aid of the Royds in the planting of Avenue trees along its lines of roads; and requested that a report from time to time might be made of further progress in this direction. Such a report might it is considered be submitted as soon as the Avenues have been completed; and therefore I am to express a desire on the part of Sir Richard Meade that during the present Monsoon & year, every possible endeavour may be made towards the accomplishment of the end in view by planting as generally as can be done along all the roads in the Nagar Division where such is still required.
